🏠 CF: Thofiqui

PROFILE

Backend engineer and Computer Science & Engineering graduate specializing in scalable, reliable server-side systems with Django and FastAPI, backed by strong PostgreSQL and REST API design fundamentals. Founder of CodeTron with proven AI / RAG engineering as a secondary strength, and a competitive programmer (750+ problems solved) with a strong bias for execution and measurable real-world impact.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript
Backend: Django, FastAPI

Databases: PostgreSQL, Google Sheets
AI / ML: Deep Learning, AI Agents, RAG, OpenCV, YOLOv8, OpenAI API
Tools: Git, GitHub, Streamlit, Cloudinary, Telegram Bot API

Frontend: HTML, CSS, JavaScript

PROJECT EXPERIENCE

Blood Donation Management System

2024

Django / PostgreSQL / JavaScript / Cloudinary / GitHub

<https://github.com/ThohidC223075/blood-donation-system/tree/master>

- Engineered a location-based donor–recipient matching platform that meaningfully reduced critical blood search time.
- Built donor registration, area-based discovery, active-donor management, and automated email notification pipelines.
- Integrated Cloudinary for scalable media storage and optimized PostgreSQL queries for reliable concurrent performance.

Coaching Management System

2025

Python / Streamlit / Pandas / NumPy / Google Sheets

<https://github.com/ThohidC223075/Coaching-Management-System-for-Pragya>

- Architected an end-to-end institute platform covering attendance, invoicing, payroll, and student management.
- Integrated Google Sheets as a live backend, enabling non-technical staff to manage records without training.
- Automated salary calculation and financial tracking, reducing administrative workload by roughly 70%.

Banking RAG Chatbot

2025

Python / OpenAI API / Vector Database / Streamlit / Telegram Bot

https://github.com/ThohidC223075/Banking_Chatbot

- Built a production-ready Retrieval-Augmented Generation chatbot for automated banking customer support.
- Implemented vector-database semantic search for highly accurate, contextual query resolution.
- Deployed Telegram Bot integration enabling real-time customer interactions at scale with zero manual intervention.

PROFESSIONAL EXPERIENCE

Mathematics Instructor

Pragya Academic Care · 2023–2025

- Delivered structured mathematics instruction to secondary and higher-secondary batches, measurably improving pass rates.
- Independently self-funded ~BDT 6 lakh of university tuition and living expenses through professional teaching.

Fund Manager

Bobbin · 2025–Present

- Lead financial planning and full disbursement cycles for a ~BDT 16 lakh portfolio, applying disciplined budgeting to ensure accountable, on-time fund allocation.
- Build and sustain stakeholder trust through transparent reporting and rigorous fiscal accountability in a high-responsibility financial leadership role.

COMPETITIVE PROGRAMMING

Codeforces: Thofiqui · Max Rating 1172

750+ problems solved

- 650+ problems solved on Codeforces and 100+ on Beecrowd, with a strong algorithms foundation.
- First Runner-Up and Second Runner-Up in inter-university programming contests.
- Top 5 — Junior Solo Contest (IIUC AU'25); 2nd Place — Team Contest (IIUC Pushback).

KEY ACHIEVEMENTS

- Founded CodeTron, a software & AI services startup delivering web and AI-powered solutions to clients.
- Raised ~BDT 16 lakh fundraising portfolio at Bobbin through networking and communication.
- Active Member, Durbar Taronno Club — leading social-welfare and volunteer drives.
- Selected Problem Setter, IIUC Contest AU'25 — designed and validated original, well-calibrated algorithmic problems.
- Bootcamp Coordinator, IIUC CP Society — mentored junior programmers and grew competitive-programming culture on campus.

EDUCATION

B.Sc. in Computer Science & Engineering

IIUC · CGPA 3.55/4.00 · 2026

Higher Secondary Certificate (HSC)

GPA 5.00/5.00 · 2020

Secondary School Certificate (SSC)

GPA 5.00/5.00 · 2018

LANGUAGES & INTERESTS

Languages: Bengali (Native) · English (Professional Proficiency)

Interests: Backend · AI Engineering · Competitive Programming · System Design · Tech Entrepreneurship
